Student Planner	<i>Provided by OMMS</i>		
USB Flash Drive (File Storage)	1 (optional)	1	1

Parents: Throughout the year, your child’s teacher(s) will identify **items for donation** that will be appreciated. One such item is a box of tissues for classroom use. If you would like to donate these, please send it in with your child when requested. Thank you.

Optional - The TI-84 Plus Silver Edition Graphing Calculator will be used regularly in certain math classes. Graphing calculators are an important technology used in Howard County mathematics courses beginning with pre-algebra and extending through the end of the mathematics course sequence. Although students will be provided with a graphing calculator for use in school and have the ability to borrow one for out of school use, students are best served by having a personal calculator and becoming very familiar with how it is used to address a number of different types of mathematics problems.
